

# CSR April 2023 – March 25 Ami Lifesciences Pvt. Ltd.

**AMI LIFESCIENCES**

Document No.:	ALPL/CSR/001
Year	April 2023-March 2025

# SUSTAINABLE DEVELOPMENT GOALS

At Ami Lifesciences, we have decided to use UN Sustainable development Goals as a reference for all our Business Practices

[The 2030 Agenda for Sustainable Development](#), adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

# 1 NO POVERTY

- To Educate and develop poor, economic backward class child for their education and development contributed to “Padmavati Education Trust” who work for aim to develop and support poor, economic backward class child (~1100 Childs) for their education and development and provide daily food and snacks to under privileged Childrens, mainly of daily wagers and labors and have paid more than 17 Lac INR
- Ami life sciences complies to all social and welfare statutory requirements and guidelines by Government follow Minimum wages act 1948, Employee compensation act (amendment) 2017, Payment of bonus act 1965, to decent work and economic growth of the employees
- We have paid to traffic department of Vadodara to provide compensation, food, training to staff of traffic brigade
- We have financially supported to the Vadodara traffic department to Education & compensation for the staff of the Vadodara traffic department

# EDUCATE & REDUCE POVERTY

- To Educate and develop poor, economic backward class child for their education and development and reduce the level of poverty, Ami Lifesciences Pvt Ltd have done The Smart Anganwadi Transformation Project in Padra Taluka is a collaborative initiative by United Way of Baroda

- The five selected Anganwadi Centers were found to be in severely dilapidated condition, lacking adequate infrastructure, sanitation, and safe spaces for children. Despite repeated applications and appeals by local authorities, these centers were excluded from government renovation and development schemes, leaving them underserved and neglected. Recognizing this urgent need, Ami Lifesciences took the initiative to transform these centers—ensuring that children from marginalized communities receive the nurturing, secure, and stimulating environments required for their holistic development and foundational learning

## SCIENCE LAB INAUGURATION AT KHARAKHADI SCHOOL

On 3rd August 2024, we proudly inaugurated a Smart School Classroom and a Mini Science Lab at Karkhadi High School. This initiative aims to enhance the learning experience for students, providing them with better access to educational tools and resources. We also distributed education kits to support students.

# EDUCATION KIT DISTRIBUTION

On 25th October 2024 we distributed education kits to children, ensuring they have the necessary tools to pursue their education with confidence. Total 800 plus kits were distributed.

- Ami Lifesciences feed to more than 1600 plus people (including daily wagers) everyday full meal in our canteen at a highly subsidized rate.
- We ensure the nutrition requirement through complete meal confirmed by dietitian complying to dietic nutrition standard.
- We have sponsored and distributed higher productivity saplings of Mango and Lemon to the farmers of Vadodara to poor farmers
- We have donated to “Indraprasth nu Rasodu” to provide complete – hygienic and nutritious meals to underprivileged at subsidized rates
- We have donated a meal van to “Akshay Patra” foundation which leads the efforts to provide daily meals to school Childrens free of cost

# WOMEN DEVELOPMENT

- We promoted the recruitment for female gender in some of the department where earlier males only there. Such as purchase department 01 female candidate recruited.
- Last year we hired total **32 number of female** for our organization.
- We at Ami Life sciences Pvt Ltd taking initiative for Women empowerment & Development.
- As part of this, We have form woman committee meeting and meeting is scheduled at frequency of every months
- Women day celebration
- Specialized education course sponsorship for woman employees including board of directors
- We also celebrate International Women's Day to highlight the contribution of gender in our business success and sustainability

# Facilities for Women Employees at workplace

## Women Empowerment Program

We believe that empowering women at the workplace means giving them the freedom to gain new skills, and gain autonomy. Women empowerment is created when the strengths that women bring to the workplace are accepted and used.

Our company organizes many events and programs to promote women empowerment such as celebration of women's day, safety competition, participation in external events etc.

Our L&D department conducts regular POSH awareness sessions for women employees to promote a healthy and positive workplace culture.

# Facilities for Women Employees at workplace

## Educational Benefit

We believe that by connecting women with experienced mentors and sponsors, they can gain the support, guidance, and advice they need to succeed in their careers. Educational sponsorship programs can also help to break down gender stereotypes and promote diversity and inclusion in the workplace.

We provide sponsorship for education to promote women empowerment. We have sponsored MBA program to one of our women employees to help her to enhance her skills and knowledge.

 • Age criteria: 18 or above

**Job Location: Karakhadi (Near Vadodara)**  
 Candidate unable to attend the interview can share their profile on [careers@amilifesciences.com](mailto:careers@amilifesciences.com)

- Ami life sciences follow Minimum wages act 1948, Employee compensation act (amendment) 2017, Payment of bonus act 1965, to decent work and economic growth of the employees
- We are providing training and development opportunities to all our employees to improve their skill and knowledge, so they move up the value chain and improve their chances for higher compensation
- We organize lot of community events to ensure that all our employees and local communities get a common platform to interact and celebrate together the diversity !

3rd-year students of Chemical Engineering from DDU visited our manufacturing premises at Karakhadi.

Students got a great opportunity to witness production processes and operations and have practical industrial experience.

[#amilifesciences](#) [#industrialvisit](#) [#chemicalengineering](#)

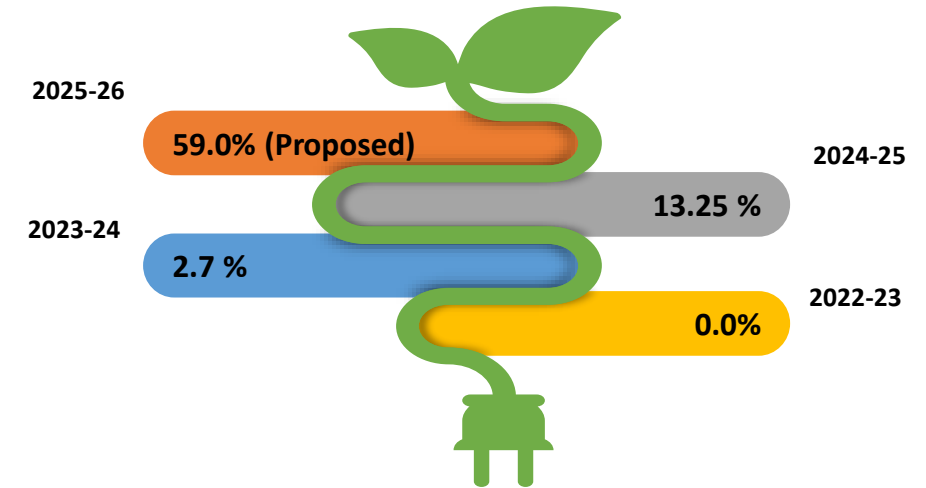

- Ami life sciences celebrated Safety week to encourage, educate and trained to company and contractual employees for road safety, person safety, home safety, etc.
- We have provided the training on different subjects like first aid, emergency response, hazop study, etc through external as well as internal faculties
- We have celebrated World Environment day to motivate and educate our employees and families

# Objective: Renewable Energy Use & Reduce GHG Emission

Solar power project has been done and started using Renewable Power from February 2024 and **13.25%** renewable energy we have used for our manufacturing in year 2023-24. We have proposed our new solar power plant and target to achieve **50%** renewable energy for the year 2024-25.

We lend our support for affordable and clean energy by providing Roof top solar energy facility in schools at Karakhadi

We also are very conscious and compliant organization when it comes to waste disposal and consumption of natural resources, including water

We use our treated sewage wastewater in our facility and reducing the freshwater consumption.

# Fuel Saving, Reduction in Air Emission - GHG

## Photographs of New Buses with Ladies & Disable Person Dedicated seat

Diesel Consumption Reduced in Year April 2023 - March 2024 through High Fuel-Efficient Buses 40327 (liter)

Identify the nearby vendor with Green fuel supplying vehicle and service started from Vadodara. Other supplier's vehicle changed from petrol to CNG Ecofriendly fuel. Reduced the carbon emission.

Based on assessment, it maximum output from same equipment evaluated and batch size increased for mentioned product. Through this approximately same electrical energy used and increase production.

40% Reduce Raw material consumption by reusing Recovered input material in process with new Identified products

- Carbon tower installation done in which VOC absorption carbon filled and vent taken up to safe height with VOC installation. So, there is no such escape of VOC in open climate and we got odour free working area at plant. See attached photographs of the Carbon Tower and VOC detector.
- Online Continuous Emission Monitoring System established to prevent Air pollution due to emission of Particulate Matter, Sulphur Oxide (SOX), Nitrogen Oxide (NOX) possible to control. Attached here Report of Third-party post installation of System.
- We have provided renewable energy - Solar plant facility in schools of Karakhadi village.
- We are in advance discussion with a Green Energy company to commission green energy electricity generation plant for our manufacturing assets. The same will be finalized by next financial year.
- To create awareness of environment and garner support of all we have sponsored one of our employees - Mr. Siva Suryan for 10000 km cycling from from extreme north, east south and west of India and spread awareness

- Carbon tower installation done in which VOC absorption carbon filled and vent taken up to safe height with VOC installation. So, there is no such escape of VOC in open climate and we got odour free working area at plant. See attached photographs of the Carbon Tower and VOC detector.
- Online Continuous Emission Monitoring System established to prevent Air pollution due to emission of Particulate Matter, Sulphur Oxide (SOX), Nitrogen Oxide (NOX) possible to control. Attached here Report of Third-party post installation of System.
- During Selection process of Boiler, we have selected technology where we can save natural resources by selecting fuel manufactured from wastages, “Bio-Fuel (Briquette)”. (Mentioned data for year actual consumption)
- 100% Packaging designed for easy dismantling & recyclability to reduce environmental impacts from product end of life

- We, Ami Life science Pvt Ltd have provided rainwater harvesting system in nearby villages. In year 2023-24, we harvest 7450 m<sup>3</sup> in 2023-24
- Last year we have done water audit to improve our water handling practices.
- We are performing API contained test in treated water and maintained ZERO API level in treated water.
- We are maintaining all parameter of treated water as per government limit.
- We are maintained to used recycle water in operation to reduce fresh water as per target.
- We are performing bioassay test for our treated water and complying the same.

# Biodiversity & Carbon Absorption

## Green Belt Development & Carbon Absorption

- We Ami Lifesciences have supported cause of maintaining cleanliness and hygiene across our communities and cities by sponsoring “Swachta Run” in partnership with Vadodara Marathon where more than 40 Thousand people participated for 5 Kms run

- We associated with NGOs works for areas of sustainability
- **Yuvalaya Charitable trust**
- **United way of Baroda**
- **Society of Physically handicap**
- **Vadodara Marathon**
- **Indraprastha Foundation**

## EMPOWER STAKE HOLDER SUPPLIER TRAINING, AUDIT & ASSESSMENT

- Empower, educate & aligned the the supplier or external stake holder through ESG awareness session & ESG Audit
  - Ideas for Climate action & how it can be executed to support climate change
  - Responsible consumption & production practices
  - Actions can be done for sustainable cities and communities
- Decent work done through audit their existing practices and recommended for SDGs initiative aligned practices to drive the business

# GLIMPSE OF EMPOWER STAKE HOLDER SUPPLIER TRAINING, AUDIT & ASSESSMENT

# UNGC Member

# SBTi Commitment

PARTNER ORGANIZATIONS

## COMMITMENT SELECTION

By signing this Commitment Letter, our organization indicates an intent to join the growing group of leading corporations that are setting emissions reduction targets in line with what climate science says is necessary. By doing so, we recognize the crucial role the business community can play in minimizing the risk climate change poses to the future of our planet.

Thereby, I am pleased to confirm that [ AMI LIFE SCIENCES PVT. LTD. ] is committing to:

☐ Set near-term science-based emissions reduction targets in line with the SBTi Criteria and Recommendations, and submit them to the SBTi for validations within a maximum of 24 months.

We acknowledge that our commitment will be recognized on the [SBTi website](#) as well as on our partner websites at [We Mean Business](#). Companies who are participants of the UN Global Compact will also be recognized on the [UNGC webpage](#).

In addition, to align with the most ambitious aim of the Paris Agreement and to what science dictates is necessary to reduce the destructive impacts of climate change on human society and nature - to reach net-zero global emissions by 2050 at the latest in order to limit global warming to 1.5°C - my company is committing to:

☒ Set net-zero targets, including a long-term science-based target: My company commits to set long-term science-based targets to reach net-zero value chain GHG emissions by no later than 2050 in line with the [SBTi Net-Zero Standard](#) and submit it for SBTi validation within a maximum of 24 months. By committing to set a net-zero target, I also acknowledge that my company will join the Race to Zero campaign.<sup>3,4,5</sup>

Near-term science-based targets are 5-10 year GHG mitigation targets in line with 1.5°C pathways.

Net-zero science-based targets are long-term targets that show companies how much they must reduce value chain emissions to align with reaching net-zero at the global or sector level in eligible 1.5°C pathways by 2050 or sooner. The SBTi defines the state of net-zero emissions for companies as reaching a state of no impact on the climate resulting from the organization's GHG emissions. Reaching a status of science-based net-zero emissions implies the following two conditions:

PARTNER ORGANIZATIONS

- Achieving a scale of value chain emissions reductions consistent with the depth of abatement at the point of reaching global net-zero in pathways that limit warming to 1.5°C with no or low overshoot.
- Neutralizing the impact of any source of any residual emissions by permanently removing an equivalent volume of atmospheric CO<sub>2</sub>.<sup>6</sup>

Visit the [SBTi Net-Zero webpage](#) and review the [Net-Zero Standard](#) for more information. For financial institutions, the approach to net-zero emissions targets across the value chain is being developed.

### Sign the commitment

Please [register online](#), sign this document, and return a signed copy to [commitments@sciencebasedtargets.org](mailto:commitments@sciencebasedtargets.org). The SBTi reserves the right to carry out due diligence reviews before accepting and publishing commitments.

This SBTi commitment letter can be signed by any organization representative, but the commitment application form requires the contact details of a managerial level point of contact in the organization.

Once this commitment letter is processed and you have received formal confirmation over email, your organization will be recognized as "Committed" on the [SBTi website](#) and the partner websites of UN Global Compact and We Mean Business. Organizations committing to set a net-zero target will also be added to the UNFCCC Race to Zero website provided the organizations are eligible to join at this time.

"Once a blood donor, always a lifesaver."

Ami Lifesciences organizes Blood Donation Camp in collaboration with SSG Hospital, Vadodara.

Every drop of blood donated is a ray of hope for those fighting battles we cannot comprehend. Blood donation not only saves lives but also helps our bodies in weight loss, reduces the risk of heart attack and cancer, and helps to maintain a healthy liver.

We respect and recognize the incredible generosity of blood donors worldwide.

Today, more than 250 employees have come forward and supported this noble cause. Our beloved Chairman and Managing Director Shri [Girish Chovatia](#) and Shri Chaitanya Zala (MLA - Padra) have also joined us in gracing this occasion by motivating all the donors.

To,  
Mr. Girish Chovatia  
CMD  
Ami Life Sciences  
Vadodara,

Subject: "Letter of Thanks"

On behalf of the Faculty of Pharmacy at The Maharaja Sayajirao University of Baroda, I would like to extend our heartfelt gratitude for your generous donation. Your support means a great deal to us and will have a significant impact on our academic and research endeavors.

Your contribution will enable us to enhance our educational programs, support student initiatives, and further our research efforts in the field of pharmacy. Your commitment to advancing education and research is truly commendable, and we are honored to have your support.

We are excited about the opportunities that this donation will create for our students and faculty, and we look forward to strengthening our partnership with Ami Life Sciences in the future. Your generosity will help us continue to excel in our mission of providing quality education and conducting cutting-edge research in the field of pharmacy.

Once again, thank you for your generosity and belief in our work. Your donation will make a lasting difference in the lives of our students and the advancement of pharmacy education at our university.

Warm regards

  
Prof. Krutika Sawant

AMI LIFE SCIEN..... મહોદય/મહોદયા

દાતવ્યમિતિ યદાનં દીયતેડુપકારિણે ।  
 દેશે કાલે ચ પાત્રે ચ તદાનં સાત્ત્વિકં સ્મૃતમ્ ॥

દાન કરવું એ આપણું કર્તવ્ય છે. એવા હેતુથી જે પ્રતિફળની આશા વિના, પુણ્યક્ષેત્રમાં આપવામાં આવે છે તેને સાત્ત્વિક દાન કહેવામાં આવે છે.

શ્રીમદ્ભગવદ્ગીતા (૧૭/૨૦)\*

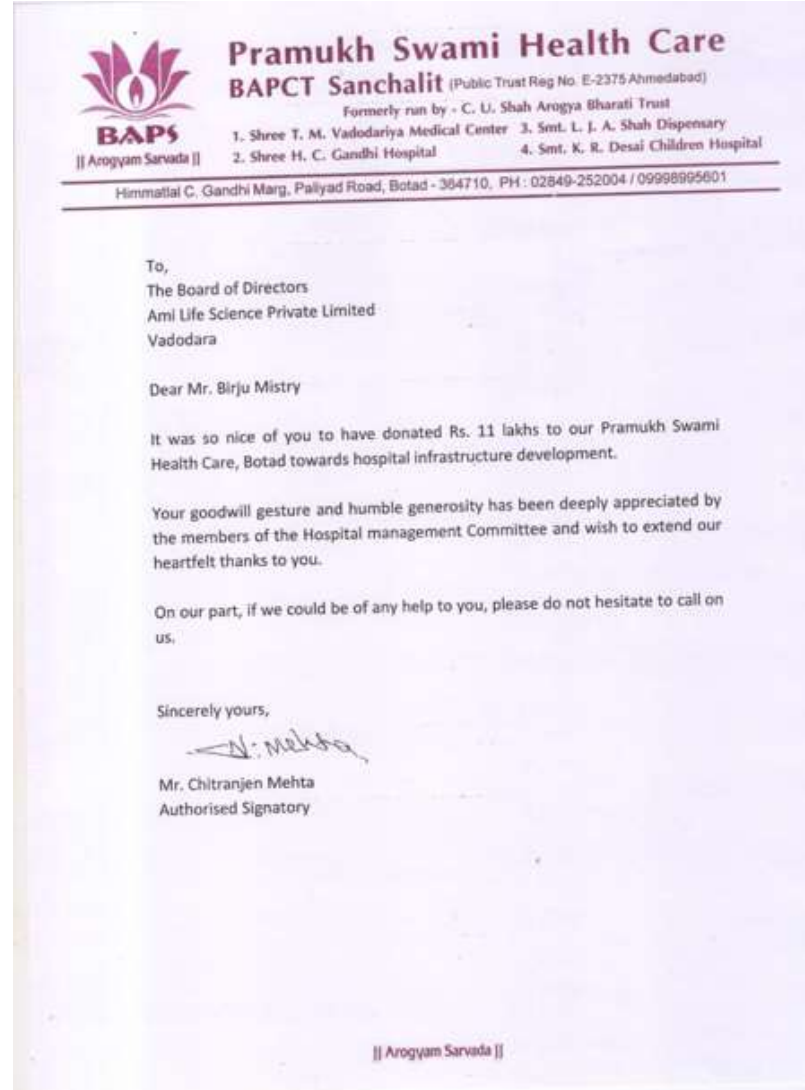

વૈશ્વિક જ્ઞાનગંગા સેવા ટ્રસ્ટ ભારત અને વિદેશમાં સંસ્કૃતનાં વિકાસ, જાળવણી અને સંવર્ધન માટે કાર્ય કરે છે. સંસ્થા દ્વારા ભગવદ્ ગીતાનું જ્ઞાન ભારતીય શાસ્ત્રોનો અભ્યાસ, મૂલ્યશિક્ષણ અને સંસ્કૃતનું શિક્ષણ આપવામાં આવે છે. અમે સંસ્કૃત દ્વારા વેદ-વેદાંગ, ભારતીય સંસ્કૃતિ, ઇતિહાસ, યોગ અને ધ્યાન નો સમાવેશ કરીને ભારતીય મૂલ્યો પર આધારિત શિક્ષણ પ્રદાન કરવા માંગીએ છીએ જેથી વિદ્યાર્થીઓ તેમના જીવનમાં સફળતા પ્રાપ્ત કરી શકે.

આ કાર્ય માટે તમારા દ્વારા કરેલું યોગદાન અમણે માટે અમુલ્ય છે, આપની સહાયતા માટે અમે આપનો આભાર વ્યક્ત કરીએ છીએ. આ રીતે જ આપનો સાથ મળતો રહે એ જ અભિલાષ.....

**Subject:** Highlights: Maker Fest Vadodara 2023

Dear Girishbhai,

The 5th mega-edition of Maker Fest Vadodara 2023 was very successful.

Two days of event on 28-29 Jan 2023 showcased creative innovations of 60 Makers from the areas of technology (hardware & software), education, environment, art, physiotherapy, pure sciences, pharmacy, agriculture and artisans and witnessed 9000+ visitors. These teams were selected from 300+ entries after a rigorous selection process by the selection committee.

The inauguration was done at the hands of dignitaries Mr. Hiranmay Mahanta, CEO i-Hub Gujarat & Dr. Subroto Das, Padma Shri Recipient & founder of Lifeline Foundation and they both were a source of an inspiration to all the Maker Teams and the audience.

Few key highlights of the event include:

- § An engaging Panel Discussion with Purple Docs startup founders
- § An inspiring session by Shark Tank India participants – The founders of Julaa Automation to share their humble journey from Farmers to Innovators.
- § A workshop on career counselling from a psychology perspective by clinical psychologist Sumit Ghosal
- § Live string-art workshop across 2 days with live audience by “The center for creative learning from IIT Gandhinagar”
- § Open Mic Jam session and engaging performances which brought everyone together in the evening. The Tod-Fod-Jod Annual event by Vadodara Innovation Council was celebrated on day 1.

The Valedictory and Award Function dignitaries were Mr. Kartikey Hariyani, Founder & CEO of Charge+Zone and Mr. Samir Shah, Director at chain of comprehensive eye clinics. 24 Maker teams received awards in silver and gold categories along with Special recognitions with prize amount totalling to INR 2.5 lakhs.

The event was very well recognized and covered by leading media houses and newspapers such Times of India, Divya Bhaskar, Gujarat Samachar, Sandesh, News18, Spark Today, VNM, Yugantar, Our Vadodara, etc.

# Endorsement Details

The success of the event is exemplified from the following insights shared by esteemed guests, mentors, industry experts and visitors:

- Many projects were at an advanced stage of prototypes. The Makers' seriousness to take their projects to the next level was visible. Makers were discussing a lot and engaging with the audience which reflects their intention to grow as entrepreneurs in future. Their maturity of discussing startup terminologies, commercial viability, remaining sustainable and scale up plans at such a young age was lauded by many visitors.
- The projects were evenly spread across various disciplines and not focused on technology alone, which is seen as a healthy sign for the innovation ecosystem.
- The overall acceptability of projects was such that a few evangelists and entrepreneurship incubation organizations expressed their interest for funding and supporting the founders.
- One of the volunteers, received 2 spot-offers for jobs by visiting industry leaders due to the sincere efforts he was putting in which was visible to each and everyone.
- Maker Community movement – The ultimate purpose of Maker Fest Vadodara found its meaning when a 2020 Maker Fest art category winner prepared memento for the guests this year.

We thank you for your support.

Subject: Heartfelt Thanks for Providing a Computer Teacher to Our School.

Respected Sir/Madam,

On behalf of Karkhadi High School, I extend our sincere gratitude to Ami Life Sciences Pvt. Ltd. for your generous support in providing a computer teacher to our school in 2024 - 2025.

Your contribution has brought a significant positive change to our students' academic environment. With your valuable assistance, our students are now gaining much-needed exposure to computer education, which is essential in today's digital age. This initiative will surely help in shaping their future and opening up new opportunities for them.

We truly appreciate your commitment to promoting education and your willingness to support schools like ours in rural areas. Your thoughtful gesture reflects your company's strong sense of social responsibility and dedication toward community development.

Thank you once again for your support. We look forward to a continued and fruitful association with your esteemed organization in next year 2025-2026

With warm regards,

  
Principal
